

Project Initialization and Planning Phase

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. Predict the Human Development Index(HDI) using Machine Learning by analyzing socio-economic indicators, enabling accurate well-being assessment and supporting data-driven policy decisions.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A government policymaker	Measure and improve the Human Development Index (HDI) of a country.	It is difficult to analyze multiple socio-economic indicators manually.	HDI depends on factors like life expectancy, education, and income.	Uncertain about making accurate policy decisions.
